HEAD OFFICE, MONTREAL

Official Telephone Directory

CENTRAL ONTARIO

(EASTERN SECTION)

MAY - 1920

L. B. McFARLANE, President.
C. F. SISE, Vice-President & Gen'l Manager.
K. J. DUNSTAN, Manager, Western Division.

W. H. BLACK, Secretary.
W. G. SLACK, Treasurer.
E. PALM, Comptroller.

The Bell Telephone Company of Canada, Limited, assumes no liability whatever for damages occurring from errors or omissions in the making up and printing of this book.

This Directory is the property of The Bell Telephone Company of Canada, Limited. It is printed for the exclusive use of the Company's patrons and is loaned to its Subscribers. All persons are cautioned against reproducing its contents.

1 C-E Copyright, Canada, 1920, by The Bell Telephone Company of Canada, Limited.

TO TELEPHONE SUBSCRIBERS AND THE PUBLIC

This Company's tariffs of Local and Long Distance telephone tolls are open to inspection and may be seen upon application to the Manager at the Company's Central Exchange. The joint tariffs of international tolls for conversations with points in the United States are open to inspection and may be seen upon application at the Head Office of the Company in the City of Montreal, or to the Company's Manager at the Block Centre for any locality, the name of which Block Centre will be furnished by the Manager of the local exchange.

GENERAL INFORMATION

The right of the Subscriber is to use the instruments and connecting lines (except public telephones) where the Company may place them, under such rules as the Company may from time to time prescribe. He shall not extend their use to other individuals, except his servants upon his business nor shall they be used for any tolls or consideration to be paid by any person other than the Subscriber; nor does this confer on him the right to use the instrument of another Subscriber.

A Subscriber is not allowed to remove or otherwise interfere with the wire connections or parts of any Telephone apparatus leased from this Company, or make attachments thereto.

No profane or obscene language will be tolerated over the lines of the Company and the Company reserves the right to remove the lines and instrument without notice for any violation to this rule.

HOW TO USE THE TELEPHONE

Look up in the latest directory the number of the person to whom you wish to talk, and call the operator by lifting the receiver from the hook, or if the instrument has a generator and crank, by giving the crank one short turn. If you do not find the number in the book, ask "Information."

Face the transmitter with the mouth not more than one inch from the opening. Speak naturally, distinctly, and not too rapidly.

When the operator replies by saying "Number?" give your order slowly and distinctly. First, name the exchange desired, and then pronounce the number by digits, making a pause between the hundreds and the tens. For example: "Main 4467" should be pronounced "Main, four-four (pause) six-seven."

After giving the number, listen to the operator as she repeats it. If she repeats it correctly, say, "Yes" or "Right." If she does not repeat it correctly, say "No" and give the number again.

If the person you are calling fails to answer within a reasonable time, the operator will report, "(called number) does not answer."

When finished talking, replace the receiver on the hook with the large end downwards. If your telephone is equipped with a bell crank, be sure to give the crank one short turn.

If you wish to attract the operator's attention at any time during a connection, and your instrument is not equipped with a bell crank, **Move the Hook Slowly Up and Down** with pauses of sufficient length for operator to respond. **Don't Move the Hook Rapidly**, as a rapid movement fails to give the desired signal. If your telephone is equipped with a bell crank, give one short ring.

In answering a call, do not say, "Hello." Instead, state at once your own number or name as: "This is Main 7640," or, "This is John Smith & Co." When called, do not remove the receiver from the hook until the bell stops ringing.

When holding a line, never replace the receiver on the hook as this will give the operator a signal to disconnect.

In Case a Conversation is Cut off Before Completion, the Subscriber who was CALLED should immediately hang the receiver on the hook and wait. This will enable the CALLING Subscriber to call again. If the CALLED Subscriber leaves the receiver off the hook, the line will be reported busy to the CALLING Subscriber.

Answer calls promptly.

Do not use the Telephone during a thunderstorm.

PARTY LINE COURTESY

To make party line telephone service efficient and to prevent annoyance to the subscribers on the same circuit, the following rules must be observed:—

1. Answer your own signal. If there is any confusion about the rings, report the fact promptly to the Chief Operator.
2. When you wish to call, remove the receiver and listen. If the line is in use, restore the receiver immediately to the hook and wait for those using the line to finish.
3. Do not allow children or others to listen on the line when it is in use, or to play with the telephone at any time.

Please remember that the other subscribers on the line have equal rights with you.

Party line service is satisfactory when the above rules are observed.

LONG DISTANCE CALLS

To make a Long Distance Call,—Call the operator in the regular way, and ask for—"Long Distance."

When the Long Distance operator answers, give her the telephone number from which the call is made—"Main 6000."

Give her also the name of the party making the call—"John Smith."

The number of the telephone desired (if known)—"Main 4000."

The City or Town, Province or State—"Montreal, Que."

If a particular person is desired, give his name—"James Brown."

If the Telephone number desired is not known, give the name of the firm or the name and initials of the person under which the telephone is listed—"c/o Brown, Jones & Co."

If possible the street address—"30 Front St., West."

Messenger Calls.—If the person desired is not connected by telephone, a messenger will be sent to his address to request him to come to the telephone, provided the party calling guarantees payment of the messenger charges. The exact amount disbursed for messenger service will be charged, in addition to the Company's tariff rates for conversation.

Appointment Calls.—Appointment to talk at a specified time may be made by notifying the long distance operator of the time at which connection is desired. No extra charge will be made for appointment calls (except for messenger service

TELEPHONE INFORMATION—Continued

LONG DISTANCE CALLS—Continued

when such service is involved), but the Company cannot guarantee the completion of the connection at the exact time specified.

An appointment made during day hours for conversation at night will be charged for at day rate.

Collect Calls.—The charges on a long distance call, and messenger charges, may be made against the telephone called, provided the charges are accepted by the party called, and the messenger charges guaranteed by the party calling. Request to have the charges collected from the telephone called, must be made when the call is given to the long distance operator.

Leave Word Calls.—If the person with whom you wish to talk is not immediately reached at the telephone called, word may be left (without charge) to have him call when ready to talk.

Reports.—In case delay is encountered in completing a call, the long distance operator, at reasonable intervals, will advise the person calling, regarding the cause of the delay. If a report is desired, call the long distance operator and ask her for information required.

Rates and Charges.—Rates for long distance service are based upon an initial period of three minutes; and the three-minute rate will be charged for connections not exceeding three minutes. For overtime, beyond the initial period of three minutes, charge will be made by the minute for each additional minute or fractional part thereof. The long distance operator will not interrupt conversation to notify subscribers of the expiration of the first three minutes.

Where the day rate is 25 cents or less, the rate for service during day or night is the same.

When a particular person is asked for, every reasonable effort will be made to establish the connection with the person desired.

An information charge will be made if information is given as to the whereabouts of the party called, provided the call is not completed and for the third and each subsequent attempt to reach the party called in other towns on the same day.

When no particular person is asked for at the time the call is given to the long distance operator, charge will be made if connection with the telephone number is established.

Requests for Charges.—If a patron desires notification of the amount of the charge on his message, he will save time by so advising the operator at the time he gives his call. If the request for such information is not made until the completion of the conversation, unavoidable delay results. If the information requested after completion of the call, make sure operator understands that you wish the TOTAL CHARGES on a particular conversation.

SUPERVISION OF TOLL CALLS BY PRIVATE BRANCH EXCHANGE OPERATORS

The long distance operator is held responsible for the supervision and timing of all messages and for the character of the service furnished. Supervision of connections by Private-Branch Exchange operators interferes with the service and such operators should not remain "Cut in" on the line after the connection has been established.

COMPLAINTS

The Company appreciates prompt reports regarding inattention on the part of its employees, or of interruptions to Exchange Service. Such reports should be made to the Trouble Department (no number necessary).

Report all complaints of Long Distance Service to the "Long Distance Chief Operator."

If not promptly attended to, complaint should be made to the Manager.

MOVING OF INSTRUMENTS

The Telephone is first placed by the Company where the Subscriber directs. If later the Subscriber requires the instrument moved, such removal will be done by the Company at regular charges.

On account of the time needed for changing telephone equipment from one location to another, notice in writing or by telephone should be given at least ten days prior to the time a removal is desired. Notice given as far in advance as possible will enable us to remove your telephone equipment so that your service will be practically uninterrupted.

ATTACHMENTS TO TELEPHONES

The Company does not permit any appliances not furnished by it to be attached to its telephone apparatus. It has been found that such attachments often cause trouble and are of no real advantage.

COIN COLLECTOR, PUBLIC TELEPHONE SERVICE

Coin Collectors on Public Telephones have been installed by the Company, for the convenience of Subscribers and the General Public, in suitable locations throughout the City.

IDENTIFICATION OF EMPLOYEES

All employees of the Bell Telephone Company of Canada, whose duties require them to enter the premises of subscribers or others, are required to wear a badge similar to the accompanying illustration, or to produce a card of identification from the Manager. Subscribers are hereby notified to require all persons who ask permission to enter their buildings or premises for purposes in connection with the Telephone, to produce a card or badge. Any person, claiming to be an employee of the Company who is without this card or badge should be refused admission and the Manager be notified at once by telephone.

PUBLICATION OF TELEPHONE NUMBERS

Subscribers are requested not to advertise Telephone Numbers, but simply the words "Telephone Connection," as it may be necessary to change such numbers.

ERRORS AND OMISSIONS

The Company desires that all subscribers shall be so listed in its Telephone Directory as to ensure efficient service. Errors or omissions should be promptly reported to the Manager. The Company assumes no liability whatever for damages accruing from such errors or omissions.

SURRENDER OF OLD DIRECTORIES

Many telephone numbers are changed and the new numbers listed in every issue of the directory. It is to the subscribers' own interest, as well as that of the Telephone Company, that all old directories be surrendered, as the use of obsolete telephone books result in wrong numbers being called, causing annoyance to both subscribers and the Company.

YORK TOWNSHIP,—for Subscribers see Agincourt.

YOUNG'S POINT,—for Subscribers see Lakefield.

Wrong Numbers.

Errors in telephone service are frequently caused by the use of old directories and lists of subscribers' numbers. Use only the latest issue of the Company's directory.

Your Selling Story

EVERY page in the Bell Telephone Directory is consulted daily by scores of just those people who have the **means** to purchase. A prominently displayed advertisement of your goods will reach the **very trade you are after.**

Glance through this issue and see the number of successful firms who know the worth of Directory Advertising.

Telephone orders are profitable and easy to handle. Get your share of this business! An advertisement in the Bell Directory will help!

FURS

Buckham

LIMITED

204 YONGE STREET

TORONTO

To the BAKER—It pays to bake with REINDEER. Larger yield means larger profits and greater satisfaction assured. *Bakers admit its there.*

To the DEALER—Better your trade by giving the housewives the best flour in your territory. You'll not only profit by it, but you'll build a trade any dealer would take pride in.

MILL REINDEER, IT PAYS

To the HOUSEWIFE—Compare REINDEER in any test with the finest flours in your field, then make your selection.

IT WILL BE REINDEER
